Themes: Advocacy, Counselling, Mental Health

Aimed at: All People

Catch22 puts relationships at the heart of its delivery, and this begins with building strong and trusting partnerships with commissioners and collaborators. This approach enables us to co-design and co-deliver high quality public services for communities all over the UK.

Catch22 work across five main hubs:

Justice

Offender management, violence reduction interventions, rehabilitation and victim services. Working with young people and adults, we provide intervention services in custody and in the community that are focused on building strong, consistent and trusting relationships to help unlock potential and make positive changes in life.

Education

Alternative provision schools for pupils outside mainstream education. We provide high quality teaching and learning based on effective relationships which help young people to progress and succeed in sustained education or employment.

Vocational Training and Employability

Apprenticeship programmes and initiatives to help people into work. We offer learning and training opportunities for students who don't want to stay in a traditional academic environment and help those who have struggled to find work

through conventional routes.

Young People and Families

Child sexual and criminal exploitation services, mental health support, family intervention services. We work with young people and families in trouble, providing early intervention, targeted and specialist support services to those in crisis, leaving care, missing from home or with substance misuse or mental health problems.

National Citizen Service (NCS)

We deliver a four-phase programme giving young people the opportunity to meet new friends, learn new skills and make a difference in their community.

Participants improve communication skills, work in a team and develop as leaders, in line with the NCS aim of developing a more cohesive, engaged and responsible society.
