Residential Care

If you fancy living in a home away from home – but with the support and reassurance of professional helpers nearby, residential care may be your best option.

Individual independence is delivered through your own very comfortable bedroom with all the privacy you could ask for. Free to decorate your room how you wish, you will feel right at home in no time.

Your schedule can be full with your favourite activities or you're free to wander around the home as you wish. Your friends and family are free to visit at any time and stay as long as they want. Invite loved ones round for a tea or for a long lunch - our home is your home!

Dementia Care

Dementia is a growing concern in the UK with more and more people experiencing different levels of symptoms. This includes some form of memory loss and difficulties with thinking, problem-solving or language. Our dementia friendly home is geared to provide the best environment to ensure our dementia

patients have a safe and pleasant environment to enjoy daily life. From our extensive experience, dementia residents flourish when the environment and activities are tailored to an individual's needs.

At Brailsford House, we take the time to get to know each resident – their history, lifestyle and personality – building our care around them. We work very closely with each resident's family to create the best possible environment. Our relationship with family and friends is crucial to dementia care – it's so important that residents' loved ones feel welcome whenever they visit.

Respite/Day Care

Respite/Day Care is a very popular option, especially if you're considering full time admission at a later date.

Respite offers carers a deserved break – a time when the carer can recharge their batteries. It gives the person being cared for a break too, a holiday from their normal routine and surroundings. Respite care can also help create a healthy care-work-life balance or allow carers to take a well-earned holiday without worrying about who'll look after your loved one.

Our day care offer allows our guests to experience the full services of a full time resident, but on a particular day of their choice.

Our extensive training specifically for Dementia, coupled with making the home environment dementia friendly, means the care we give is the best for your loved ones.
