How we can help

We work to provide tailored support - our residents each have their own named support worker, and there is support available 24 hours a day (both from on-site staff, and our telephone help service, SMaRT). We respect people's choices and

privacy, and promote equality and diversity.

We help people to access employment, education and training opportunities. We also help to develop life skills like managing money and accessing services and benefits. When people are ready to move on, we can support them to move into suitable accommodation.

Accommodation

We offer a range of fully-furnished bedsits with shared facilities and self-contained accommodation based in Newark, Ollerton and Retford.

Area: Bassetlaw
