What we do

Helpline: Our helpline is able to offer support in a variety of ways. Any calls will be dealt with by one of our advisors. They will be able to signpost you to other organisations, explain what we do and book you onto events. Being part of Citizens Advice Mid Mercia, we are able to refer you to various other parts of our organisation to assist with benefits, debt, housing and more.

Carers Conversations: A Carers Conversation is designed to offer carers a more person-centred approach to support. Our advisors will have 'conversations' with you to best understand what is happening in your caring role and how it is impacting on your health and well-being. The Carers Conversation is designed to understand what really matters to you and to connect you to the resources and support that can help you continue with your caring role independently. This service is for anyone over 18, who cares for someone over 18 and would like a Carers Assessment. Please call or email us to book an appointment.

Well-Being: We have a variety of zoom classes, indoor and outdoor workshops and events that are supporting carers to take some respite, helping to reduce stress, anxiety and promoting better sleep. *(Please see our schedule of all the events we have planned this month on **page 11.**)*

Training Opportunities: There are great sessions and handout sheets available to you. Book an Emergency Plan appointment and make provisions for the future. If you were ever absent from the caring role what would happen to the person you are caring for, who would support them? We will help you to get your own personalised plan set up.

Peer Support: We are looking for new peer support groups to launch, so if you have any ideas, give us a call and let us know! If you are interested in any existing peer support groups, we are able to advise you about any groups that are running through our helpline or via email.

Email: carers@citizensadvicemidmercia.org.uk. Call: 01332 228777.

THIS MONTHS TOPIC IS- PEER SUPPORT GROUPS

We have created a **10 question survey** to help us shape what is offered by us for Peer Support. Most of these are multiple choice. There are options for this in other languages. If you are able to fill this out online, please follow the link-

<https://forms.office.com/r/zx09Tkmw8E>

If you are not able to fill it out online, please call us to be sent a survey with a return envelope or alternatively ask for a call-back to go through the Survey.

Call 01332 228777.

Peer support groups are designed to connect people. These may be for people who have similar experiences of something difficult or challenging or could simply be to create an environment to socialise with others who you have something in common with. These are typically done regularly and help people to make new friends and connections.

People who attend peer support groups often have shared characteristics, experiences, and/or interests, and will play a crucial part in creating a safe environment for each other within the peer support space. People can use their shared experiences to give and receive support from each other. In creating these relationships within the group people may share coping strategies that work for them, reducing loneliness and, learning from each other.

Peer support groups can allow people to try new things or rekindle hobby or interest. Universal Services for Carers create Peer Support Groups for carers. We want these to be as enjoyable and rewarding as possible. By answering the questions below, we will be able to get a better insight into the types of groups you want to see. We will use the results from this survey to guide what we do.
