

In Bolsover District we already have 2 popular community fridges – one at Shirebrook’s “Hole in the Wall” through the BLAST [Building Lives in Shirebrook Town] CIC

Sammy, a Volunteer with BLAST (Building Lives Around Shirebrook Town), posing in front of their community fridge

The Community Fridge Fridge magnet!

Each community fridge is run slightly differently. In Shirebrook the offer of free surplus produce is to BLAST members, alongside. The Hole in The Wall centre, where you will find the fridge, is part of Derbyshire Community Council’s Adult Community Education building on Carter Lane.

To find out more, please get directly in touch with Ian Maddison of BLAST [ian.maddison@derbyshire.gov.uk](mailto:ian.maddison@derbyshire.gov.uk)

The photos below show South Normantons' community Fridge, based in the Post Mill Centre and run through ladies in South Normanton W.I.;

In South Normanton you are asked to write down the weight of the produce you take away so they can keep a track of how the service is used – you will see the scales next to the fridge.

You can follow the progress and read about how they go to this point through their face book page;
