## WHAT WE'RE UP TO...

We are pleased to announce that DAAS has been successful in securing funding from BeGambleaware to run 12 month project to support people in Derbyshire with gambling problems!! The project will also develop a programme of training to help raise awareness of gambling harms and impact within the wider community.

Given our long history of working with alcohol addiction we are very pleased to now have the opportunity to use our expansive knowledge and experience to support people in Derbyshire who have developed a gambling problem. Gambling and substance use can often be linked and many people gamble when they are disinhibited through using alcohol or drugs. This work is therefore of real interest to us and we are keen to offer support to more people in Derbyshire suffering from addiction problems. We are linking with National Organisations and the recovery network in Derbyshire to make sure that people affected by gambling can access the range of support we provide. This ranges from BACP counselling, PTSD and trauma therapy, Re wind, EMDR, compassionate mind training, group support and taking part in a range of recovery activities.

The counselling and training programmes are due to commence in December 2022 / January 2023.

If you are a health and social care worker or family member affected by someone's gambling and would like to attend our free training, please contact: [training@daas.uk.com](mailto:training@daas.uk.com)

Further information will shortly be included on our website [www.daas.uk.com](http://www.daas.uk.com)
