#MakingourMove

Empowering Local People to create Walkable Neighbourhoods

Tuesday 7 January

12.30pm - 1.30pm online

FREE

book
here

Walk Derbyshire and Walk Notts have engaged with local people to help us understand the barriers to everyday walking. We now want to consider how these barriers can be overcome and think the work of Active Oxfordshire in using a 'Neighbourhood Scanning' tool could help people to increase their everyday movement around their neighbourhoods. This session will explain how they have done this and the learning we could apply in Derbyshire and Notts.

The Talking Space will be suitable to those working in neighbourhoods, community development, parks and street scene, community safety, health and the voluntary sector.
