

Neurodiversity Event 2025

21st March 9.30 to 4.30pm @ Derby University

**Don't know much about Neurodiversity (ND) and want to learn more?
Already invested in Neurodiversity and want to celebrate with us? Come
along.....and bring a friend**

Join us for our Joint Agency ND Celebration and Awareness event, where you can network, listen to lived experiences and gain a wealth of information about ND and the benefits it can bring to our organisations.

It would be great if the audience included people with little or no knowledge of ND so we can increase awareness, so get that friend or colleague booked on with you.

The event forms part of ND Celebration Week and showcases amazing individuals from the Police Service, Fire Service and Derby University. You'll be able to talk to Neurodivergent Police Officers and Staff, Fire and Rescue Officers and Staff and Academics from Derby University.

Also be in with a chance to experience a police encounter through the lens of an autistic person, through an autism reality experience!

There will also be stalls from national and local support networks, key agencies, staff associations and federations, along with refreshments throughout the day.

Tickets are limited. To secure your free place at this event please register [here](#) or use the QR code

Neurodiversity Celebration Week

March 17 - 23, 2025
